SKY TRACKER®
PROMOTIONAL SEARCHLIGHTS

Silverbeam 360

FEATURES

- Leading Edge Xenon Technology
- Precision Nickel Electroformed Reflector specifically coated for continuous high output performance
- Color Temperature constant at 5600° (Kelvin)
- Focusable Beam
- Available in both 1000 and 2000 Watt configurations
- Adjustable tilt angle
- Tempered Glass Lamp head Window
- Weatherproof see-through control front panel door
- Powder Coated Steel Frame
- 360 degree continuous rotation
- Optional casters
- Optional DMX on/off control
- Single phase operation

Creative Application of Xenon Light Technology

Silverbeam 360 is a single-beam, rotating searchlights used to project attention-getting beams of light. The lamps vertical positioning can be fixed by means of a dual tilt handles. The system is rain tight when operated from a straight up vertical position through a declination angle of 45° in any angle in between.
